

SELECTIVE PALLET RACKING

**Fully tested
in Australia**

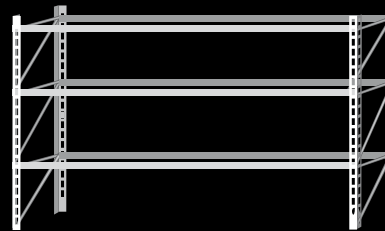

Advantages:

- Compatible with leading brand system
- Easily expanded or adapted by adding or moving components
- Holds up to 3 tonnes per level
- Quality built to ISO9000 Standards
- Fully tested in Australia & complies to AS4084 Standard

Ideal for:

- Bulk palletized storage
- Low height hand picking
- Particle board packs
- Mezzanine floors
- Car panels, bodies, engines
- Carpet/timber/pipes

Specifications:

The modular, bulk storage system has been designed for the safe storage, loading and unloading of palletized loads by fork lift trucks, pallet trucks and low height hand loading. It can also be used for the safe storage of bulky non-palletized loads like car panels or carpet rolls and meets the Australian Standard AS4084.
